

## Choosing a Group for the Project

The following is a list of criteria for choosing the members of your final project group  
(Note: There is a limit of 3 people per group and you must select by Tuesday)

- Make sure your group has members that have various talents. (i.e.. computer skills, artistic ability, mathematical skills, etc.);
- Chose members with a similar schedule or that have flexible schedules. It is important that all members be able to meet and work on the project;
- Make sure that all members live near each other or have transportation so that meeting will not be a problem;
- Chose members who share the same philosophy and work ethic;

Pick others who are responsible and will contribute equally to the project.
